Vørn—the Faroe Islands Fisheries Inspection—monitors and controls fishing activities within the Faroese exclusive economic zone and the activities of Faroese fishing vessels in foreign waters.

*It's our job to:*

- Ensure that all fishing laws and regulations are kept;
- Provide towage and salvage assistance to Faroese and foreign vessels;
- Conduct pollution inspections and cleanup oil spills;
- Conduct safety equipment inspections;
- Train cadets in navigation;
- Provide information and guidance to fishermen.
