

# Pelagic Leader

Varðin is a leading owner-operator of commercial fishing vessels in the pelagic industry of the North Atlantic.

Based in Gøta, Faroe Islands, Varðin runs a fleet of state-of-the-art vessels under a management regime that promotes and enforces the strictest measures to ensure sustainable and responsible fisheries.

The new **Varðin Pelagic** processing plant at Tvøroyri is one of the world's most advanced facilities of its kind. In keeping with the highest standards of quality and hygiene, it has the capacity to process and freeze 1,000 tonnes per day.

**VARÐIN**

*Varðin. The very best of pelagic fish.*
